Project Topic / Title: Campus Help Desk Ticketing System

Group Members:

1. Freek Schaefer
2. Wian Sandenbergh
3. _____
4. _____
5. _____

TOPIC REVIEW AND ACCEPTANCE

This form confirms that the proposed project topic has been presented to the lecturer/project supervisor for academic review. The topic has been considered in relation to the Occupational Certificate: Software Engineer group project requirements, including the identified problem or need, proposed software solution, project scope, feasibility, and expected academic outcomes.

Once the topic is accepted below, the group is granted permission to proceed with the next stages of the project, including research, requirements gathering, project planning, system analysis and design, development, testing, documentation, and final presentation. Any significant change to the approved topic or project scope must first be discussed with the lecturer/project supervisor.

DECISION

☐ Topic Accepted – Group may proceed with the project

☐ Accepted with Minor Changes – Group may proceed after applying the comments below

☐ Topic Requires Revision – Group must revise and resubmit before proceeding
