CTU training solutions | Private Tertiary Education

CAPSTONE PROJECT

WEEKLY PROJECT PROGRESS REPORT

Student / Group Template

Project Title	SmartDesk: A Customer Support Ticketing System for Small IT Support Teams
Group Members	Freek Schaefer-Gerber, Wian Sandenbergh
Module	SPM622 / MDB622
Lecturer / Supervisor	Mr. Dunstan
Week / Stage	Finalisation & Testing
Submission Date	29 October 2026

CTU Training Solutions (PTY) Ltd is fully accredited by the MICT SETA (ACC/2006/07/186) through the Quality Council for Trades and Occupations (QCTO). CTU Training Solutions is registered with the Department of Higher Education and Training as a Private College (2018/FE07/004) and provisionally registered as a private higher education institution (No 2014/HE07/004) Co. Reg No:2005/038944/07

Week / Date

Enter reporting week and date range.

19 October 2026 – 23 October 2026

Planned Work

What did the group plan to complete?

To finalise the full dissertation, complete all testing evidence (automated and manual), fix any critical defects, and prepare the presentation deck and demo script.

Completed Work

What was actually completed? Reference evidence/commits/files.

- Merged and formatted all six chapters of the dissertation.
- Executed the `pytest` suite (3 tests passed) and 20 manual test cases (all passed).
- Identified and fixed 5 defects, including a critical cross-customer access flaw (D-01) and CSRF vulnerability (D-02).
- Updated earlier documentation to correct the tech stack from C# to Python/Flask.
- Created the 12-slide presentation deck and drafted the demo script.
- Ran a Turnitin similarity check and addressed referencing issues.
- *Evidence:* Commits pushed to GitHub repository; `Test_Cases.xlsx` and `Defect_Log.xlsx` updated.

Individual Contributions

Record each member's contribution.

- Freek Schaefer-Gerber: Focused on formatting Chapters 1-3, writing the abstract and front matter, compiling the final dissertation document, and preparing the Q&A section for the presentation.
- Wian Sandenbergh: Focused on updating the Requirements Traceability Matrix, finalising the defect log, inserting testing evidence into Chapter 5, and writing the live demo script.

CTU Training Solutions (PTY) Ltd is fully accredited by the MICT SETA (ACC/2006/07/186) through the Quality Council for Trades and Occupations (QCTO). CTU Training Solutions is registered with the Department of Higher Education and Training as a Private College (2018/FE07/004) and provisionally registered as a private higher education institution (No 2014/HE07/004) Co. Reg No:2005/038944/07

Challenges / Issues

Describe blockers or unresolved issues.

- Issue: The initial SRS and Chapter 4 drafts described a completely different tech stack (C#/SQL Server).
- Resolution: The team realised this during the merge and rewrote the affected sections to accurately reflect the final Python/Flask/SQLite implementation.
- Issue: Database seed data became corrupted during manual testing.
- Resolution: Re-ran the `flask init-db` and `flask seed-demo` scripts to restore a clean state for the demonstration.

Next Week Plan

List next actions and owners.

- Final proofread of the submitted PDF.
- Verify the demo environment and backup video.
- Upload the final dissertation to the portal.
- Deliver the live presentation and demonstration on 29 October.

Supervisor Feedback

Comments, corrections and go-ahead.
