SPM622: SOFTWARE PROJECT MANAGEMENT

Research Project & Presentation Assessment Rubric

TOTAL ASSESSMENT
40 MARKS

PART A: WRITTEN DISSERTATION	PART B: GROUP PRESENTATION & DEMO
25 Marks (62.5%)	**15 Marks (37.5%)**

CRITERION & DESCRIPTION	MARKS	EXEMPLARY (80–100%)	PROFICIENT (60–79%)	DEVELOPING / UNSAT (< 60%)
PART A: RESEARCH DISSERTATION DOCUMENT (25 MARKS)				
1. Problem Definition & Domain Analysis Problem framing, user stories, software context, and real-world relevance.	5	**4–5 Marks:** Exceptional clarity in real-world problem articulation; highly defined scope and user needs.	**3 Marks:** Well-defined problem and scope; clear context with minor gaps in domain analysis.	**0–2 Marks:** Vague problem statement; weak justification or inappropriate scope for SE2.
2. Literature Review & Background Evaluation of existing tools, methods, theoretical context, and academic references.	5	**4–5 Marks:** Critical review of existing solutions and literature; flawless academic citations.	**3 Marks:** Good review of current tools/literature; minor gaps in synthesis or comparative depth.	**0–2 Marks:** Descriptive listing without evaluation; insufficient or outdated references.
3. SE Methodology & Architecture SDLC lifecycle, system architecture diagrams, tech stack selection, and design choices.	6	**5–6 Marks:** Rigorous choice of SDLC; crystal-clear architecture/UML diagrams; well-justified stack.	**4 Marks:** Sound methodology and architecture; diagrams present with minor structural issues.	**0–3 Marks:** Weak methodology; vague tech choices; flawed or unreadable diagrams.
4. System Evaluation & Results Empirical testing, results interpretation, performance/usability metrics, and feasibility.	5	**4–5 Marks:** Thorough evaluation/testing; excellent analysis of performance or usability data.	**3 Marks:** Valid evaluation of solution; basic data presentation with adequate interpretation.	**0–2 Marks:** Minimal or superficial evaluation; unverified assertions without testing data.
5. Academic Writing & Structure Formatting, logical progression, grammar, clarity, and consistent IEEE/APA referencing.	4	**4 Marks:** Flawless professional formatting; impeccable academic prose; rigorous referencing.	**3 Marks:** Well-structured document; minor formatting or citation style inconsistencies.	**0–2 Marks:** Poor structure, frequent errors, or inconsistent formatting and referencing.
PART B: GROUP PRESENTATION & DEMONSTRATION (15 MARKS)				
1. Content Mastery & Problem Articulation Clarity of problem statement, research context, and engineering solution rationale.	5	**4–5 Marks:** Engaging presentation; exceptional clarity in explaining problem, scope, and technical engineering solution.	**3 Marks:** Clear presentation covering core areas; minor pacing or technical depth issues.	**0–2 Marks:** Disorganized talk; lack of clear problem context or core software understanding.
2. System Demonstration / Prototype Walkthrough Live/recorded demo showing working features, architectural logic, and UI/UX polish.	5	**4–5 Marks:** Flawless live/recorded walkthrough showing working functionality and excellent UX.	**3 Marks:** Successful demo of core features; minor glitches or basic UI/UX design.	**0–2 Marks:** Demo failed, incomplete, or relied solely on non-functional mockups.
3. Group Coordination, Dress Code & Q&A Defense Equal participation, formal dress code compliance, slide quality, and technical defense in Q&A.	5	**4–5 Marks:** Strict compliance with formal business attire across all members; balanced coordination; confident, convincing Q&A defense.	**3 Marks:** Most members in smart attire; good team cohesion; clear slides; adequate responses to panel questions.	**0–2 Marks:** Casual/inappropriate attire; dominated by one speaker; poor timing; unable to defend technical choices.

Assessment Guidelines & Submission Reminders:

- **Proposal Due Date:** Real-world project proposal must be submitted to Miss Lee via Teams by 12pm Friday for approval.
- **Final Submission Due Date:** Complete Dissertation & Presentation materials due on **October 29th** via the official portal (Turnitin similarity < 15%).
- **Dress Code Mandate:** Formal business attire / smart professional wear is strictly required and evaluated as part of Criterion B.3 mark allocation.
